LUMENS / RUNTIME

MODE	BRIGHTNESS	10%	25%	50%	100%
	 h:min	/	/	/	35
	 h:min	100	250	500	1000
	 h:min	100	250	500	1000
	 h:min	200	500	1000	2000
	 h:min	200	500	1000	1800

165m	7,000cd	1m	IPX5
42*40*99mm 1.65*1.57*3.90in		176g / 6.2oz	

All performance measurements in accordance with ANSI/NEMA FL1-2009 Standard. The tests are performed indoors under a room temperature of 25 degrees celsius with windless conditions. The runtime may vary depending on the external temperature and ventilation conditions, and these biases may affect the results of testing.

Note: The maximum output brightness will decrease as the battery voltage decreases.

HOW TO INSTALL

BEFORE FIRST USE

The bike light arrives in lockout mode.

Before first use, please unlock the light.

If the light is left unused, carried, or transported, please lock out the power button to prevent potential damage from the heat built-up due to accidental activation.

Lock: When the light is off, press and hold the power button about 3 seconds until the Lock Icon () appears on the display screen.

Unlock: When the light is locked, press and hold the power button about 3 seconds until the Unlock Icon () appears on the display screen.

HOW TO RECHARGE

OLED SCREEN

HOW TO EXCHANGE BATTERY MODULE

DANGER

- DO NOT shine the light directly into human eyes. This may cause temporary blindness, or permanent damage to the eyes.
- DO NOT cover the light head when the bicycle light is on, or place the bicycle light head on the ground. The radiation energy of the bicycle light may cause damage to the bicycle light itself, or even result in burning to flammable objects.

WARNING

- Keep out of reach of children.
- The light contains a lithium-ion battery. Certain restrictions may apply to this product when traveling, especially when traveling by air. Always check with your carrier for specific restrictions prior to traveling with this product.
- DO NOT clean the lens with alcohol or any other chemicals.

NOTICE

- Store the light at room temperature in a dry place. Avoid moisture, or extreme hot or cold.
- Store the light in the charged condition. Avoid "deep discharge". Battery life will decrease if the light is stored in a fully discharged condition.
- Over time, the run time of the battery will diminish. Expect about 500 full charges, depending on care. After a full life, the battery will continue to charge but with a lower run time.
- When the run time is unsatisfactory, please recycle. DO NOT open the case of the light or incinerate.

EXCLUSION CLAUSE

Olight is not liable for damages or injuries sustained resulting from the usage of the product inconsistent with the warnings in the manual, including but not limited to using the product inconsistent with the recommended lockout mode.
